One fruit. Hundreds of varieties. Endless flavour possibilities.

Mango is one of the world's most diverse fruits. Depending on the variety, its flavour can range from fresh and green to juicy, honey-like, floral or intensely tropical.

At Silesia, we studied authentic mango varieties from around the globe to understand what makes each one unique. By translating these sensory insights into flavour solutions, we help you create products with authentic taste, clear differentiation and a mango profile that perfectly fits your application.

What this means for your product:

- Authentic flavour profiles based on real mango varieties
- Clear differentiation instead of one-dimensional mango taste
- Support for diverse consumer and market requirements with vegetarian, vegan, kosher and halal options
- Reliable performance across bakery, beverages, confectionery, dairy and savoury.

Taste the Silesia range. Create something worth remembering.
